

# Fuel Tanks

Single & Double Wall Vertical Fuel Storage

## Single Wall Tanks

*High Quality. Incredible Value.*

These 4,000 - 29,000 gallon tanks are specially engineered to provide high-quality, economical fuel storage. Manufactured to the industry's highest standards, they provide secure, long-lasting fuel storage that looks great.

## Double Wall Tanks

*Built for Life on the Farm*

These 5,500 - 17,000 gallon double wall tanks are built for peace of mind. With heavy gauge steel construction and all of your tank openings on the top, no containment dike is needed. Safe, secure storage for the gas, oil or diesel on your yard.

## Standard Features

- Ladder with Safety Grip
- 2 Lift Lugs
- Atmospheric Vent
- Emergency Vent
- 24" Manway
- Epoxy Primed & Urethane Top Coat
- 3" Bottom & Top Fill Access
- 3 x Brackets for Accessories
- Siteglass (Double Wall Tanks Only)
